*A Concern for People™*

## ENVIRONMENTAL COMMITMENT

At AmeriCare, being environmentally responsible is a company standard. We are committed to developing products, programs and procedures that meet or exceed health and environmental standards while providing cost effective benefits to accomplish your maintenance goals.

Since 1991, AmeriCare has shown its environmental leadership through use of the Green brand of products; packaged in recyclable containers and delivered through chemical management systems.

We have expanded our green leadership position by introducing a complete green solution – including consulting, green products, floor care, and skin care products

The purpose of our consultation is to provide an overview of the Green Cleaning opportunity to assist you in making an informed decision.

For more information regarding green consulting and training please contact Jerry Fryer at 1-800-745-6191 or email at [jerry@americarehygiene.com](mailto:jerry@americarehygiene.com)
