

Power Washing Services

Power-Washing - the application of safe, non-toxic hot water or steam under high-pressure - is one of the most effective ways to establish a clean, germ-free environment. AMERICARE-NATIONAL's power washing service will flush away years of accumulated dirt and grime from most critical surfaces, including restroom partitions, floors and tile walls, kitchens, dining rooms and food preparation areas. If your restaurant has been cited for a health department violation, or you want to clean up an unsightly, foul-smelling area, now is the time to call AMERICARE-NATIONAL for a no-obligation quotation. With 1,700 psi of pressure applied (2,500-4,000 psi on external surfaces such as concrete and grout) you will be amazed at the results!

Some power washing applications are:

-  Restrooms
-  Meat & Dairy Coolers
-  Awnings
-  Store Signs
-  Interior/Exterior Dumpsters
-  Curbs
-  Sidewalks
-  Soffit & Fascia
-  Entrances
-  Driveways
-  Dumpster Pads/Grease Traps
-  Dumpster Chutes
-  Loading Docks
-  Vestibules
-  Fuel Islands
